	3:30 PM - 4:30 PM	Out of Club (south)	\$22.50	<input type="checkbox"/>

5. Assign correct skater and select Ok.
6. Check out and pay for session.

If you have an active Skate Canada membership with your home club, follow these steps in the MSC Uplifter account.

To add an existing Skate Canada membership in Uplifter, log into MSC Uplifter account, navigate to My Account, and select Participants to edit the skater's profile. Enter the 10-digit Skate Canada number accurately into the designated field to allow the system to match the profile.

Step-by-Step Instructions

1. **Login:** Go to MSC's Uplifter site and select the **Login** tab.
2. **Access Account:** Select **My Account** to view your participant list.
3. **Add/Edit Skater:** Click on **Participants** and choose the skater you wish to update or click "Add Skater" to create a new profile.
4. **Enter Skate Canada Number:** In the skater profile, locate the **Skate Canada Number** field and enter the 10-digit number.

Note: Ensure the first name, last name, and birthdate match the existing Skate Canada records for a successful match.

5. **Save:** Click **Save** to update the profile.

Important Notes

- **Automatic Matching:** Uplifter automatically attempts to match 4/5 items (name, birthday, postal code, etc.) to pair the profiles.
- **Membership Fee:** If the membership is for the current season, the fee may still apply. If you have already paid for the current season elsewhere, the system may register a "Match - Membership Not Required".
- **Registration Timing:** Once you add the number, the system will verify it, which may take 1-2 business days to fully populate if done for the first time.
- **If Number is Unknown:** Contact your home club or Skate Canada Member Services at info@skatecanada.ca to retrieve it.
